

Product Overview

The Elite pallet truck features a 2000kg capacity and a 48V 15Ah lithium-ion battery, providing up to 3.5 hours of runtime. It includes a quick-charge system, fully recharging in just 2 hours.

Fully electric for effortless operation, it reduces user fatigue and ensures smooth transport. The electromagnetic brake automatically engages when the drive controls are released, keeping the truck secure.

Each fork has a single polyurethane roller (note: current image shows double rollers), preventing debris buildup for smoother handling.
